

Excluded Products : Other Concrete Products

If the material used to make the product

is not dry-cast concrete or the unit is primarily made with materials such as clay, adobe, pressed wood, etc., **they are excluded.**

If the products are manufactured by

pouring wet concrete into forms (precasting), compacting materials by hand in a mold, or by other manual methods **they are excluded.**

If the products are not suitable for masonry applications

such as pavers, segmental retaining wall units, gray utility brick, or other products not suitable for masonry applications **they are excluded.**

If the depth of the product

is under 3-inches, such as products to be used as adhered masonry veneers, **they are excluded.**

Below, you'll find examples of products you may stock and sell that are EXCLUDED from assessments and should not be reported:
